**ALL ARE WELCOME !**

### Brief Biography

Prof. Sorel Reisman is the President of IEEE Computer Society. He is Managing Director of the international, higher education, digital library consortium, MERLOT, and is a professor of information systems at California State University, Fullerton. He has held management positions at IBM, Toshiba, and EMI. He is an IEEE senior member and has been vice president of the Computer Society Publications Board, vice president of the Electronic Products and Services Board, and a member of the Computer Society's Transformation and Planning and Membership Committees.

Prof. Reisman was a member of the Publications Board; chair of the Magazines Operations Committee; editorial board member for IEEE Software; founding board member of IEEE MultiMedia and IT Professional; and author of the IT Pro column, The Ivory Tower. He has presented or published more than 50 articles and authored the books Multimedia Computing: Preparing for the 21st Century, and Electronic Learning Communities — Current Issues and Best Practices. He received a BS in electrical engineering and an MA and a PhD in computer applications from the University of Toronto.
